

Ayiden, lives with pLGG, and his family.

# EveryDay Support.

FROM DAY ONE

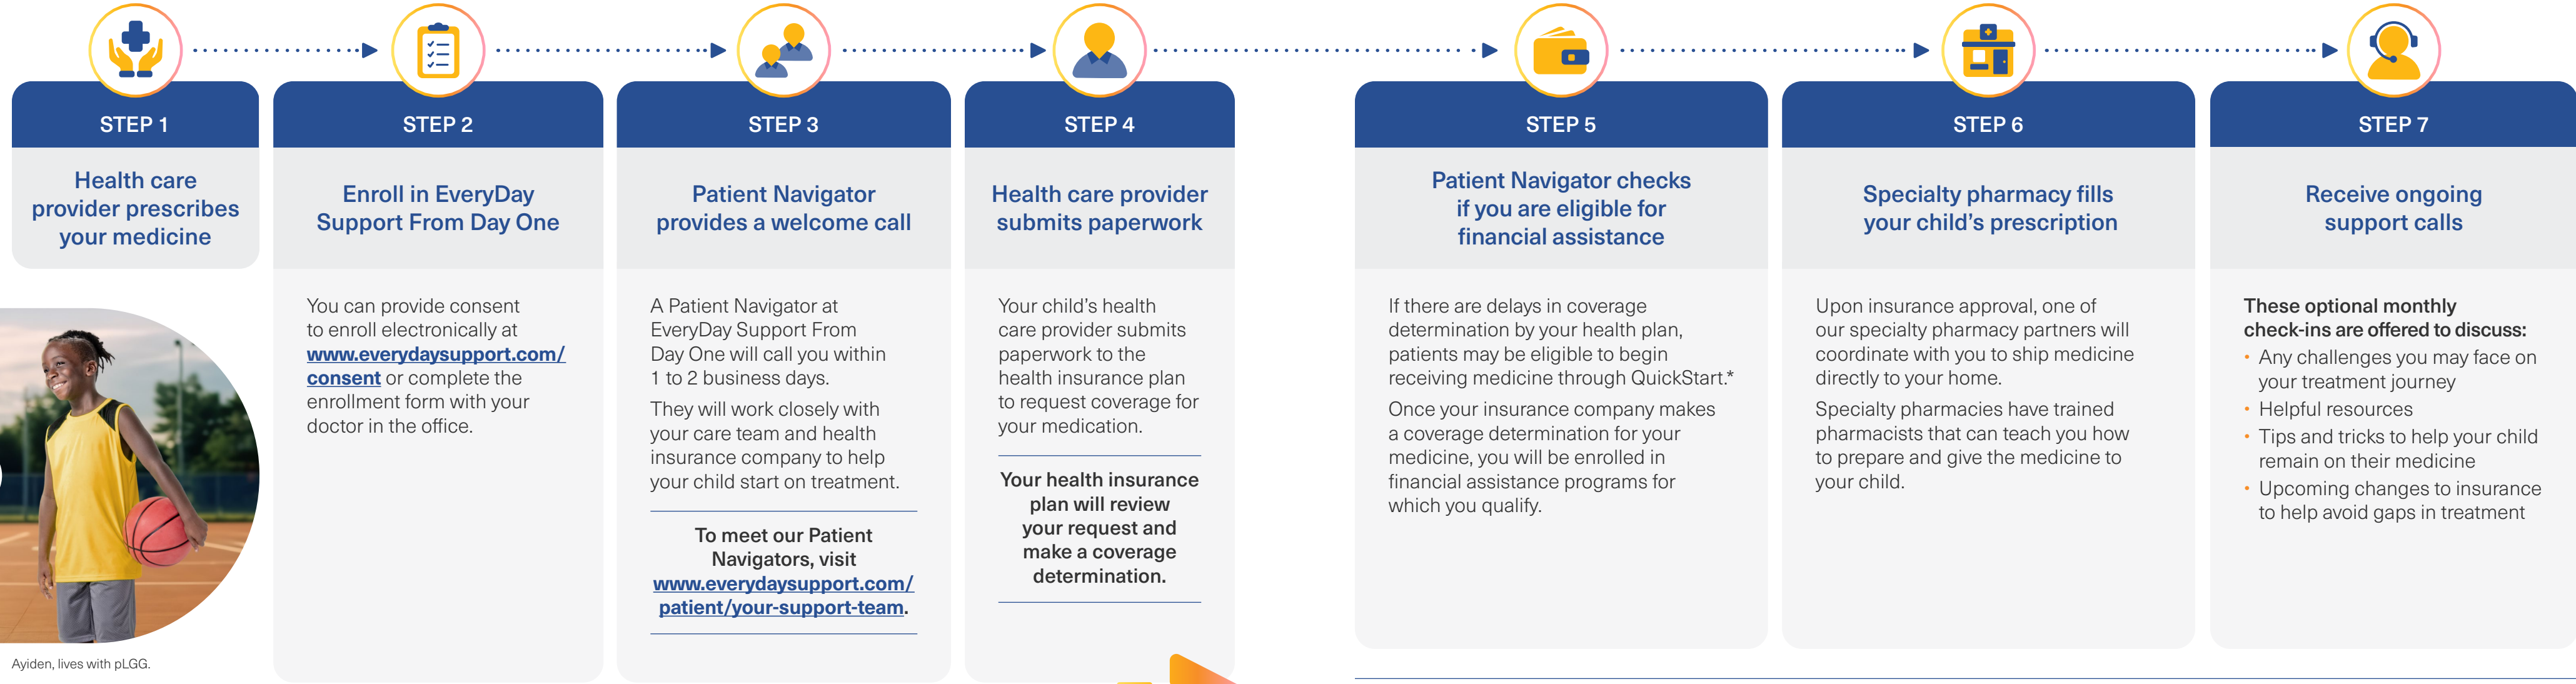

## What to Expect After Being Prescribed a Day One Medicine

We understand that every family faces different challenges when living with pLGG. EveryDay Support From Day One™ is here to help your child start and stay on their medicine.

pLGG=pediatric low-grade glioma.

# Knowing what to expect is important

Use this guide to learn how we partner with you throughout your child's treatment journey.

Ayiden, lives with pLGG.

You can provide consent to enroll electronically at [www.everydaysupport.com/consent](http://www.everydaysupport.com/consent) or complete the enrollment form with your doctor in the office.

A Patient Navigator at EveryDay Support From Day One will call you within 1 to 2 business days. They will work closely with your care team and health insurance company to help your child start on treatment.

To meet our Patient Navigators, visit [www.everydaysupport.com/patient/your-support-team](http://www.everydaysupport.com/patient/your-support-team).

Your child's health care provider submits paperwork to the health insurance plan to request coverage for your medication.

Your health insurance plan will review your request and make a coverage determination.

If there are delays in coverage determination by your health plan, patients may be eligible to begin receiving medicine through QuickStart.\* Once your insurance company makes a coverage determination for your medicine, you will be enrolled in financial assistance programs for which you qualify.

Upon insurance approval, one of our specialty pharmacy partners will coordinate with you to ship medicine directly to your home. Specialty pharmacies have trained pharmacists that can teach you how to prepare and give the medicine to your child.

**These optional monthly check-ins are offered to discuss:**

- Any challenges you may face on your treatment journey
- Helpful resources
- Tips and tricks to help your child remain on their medicine
- Upcoming changes to insurance to help avoid gaps in treatment

Throughout your journey, EveryDay Support From Day One will coordinate ongoing shipments, as well as provide treatment support and education. For more information, visit [www.everydaysupport.com](http://www.everydaysupport.com).

\*Terms and conditions may apply.

## Let us help work through the details, so you can focus on your child
